Variations from the Zoning Ordinance

To approve a variation authorized under 153.023 (B) of the Zoning Ordinance of the City of Oakbrook Terrace (the "Zoning Ordinance") as follows:

A variation from Section 156.075 (H) (2) limiting the height of the building to thirty-three (33) feet to the ridge, in order to permit a raised elevation of the home to thirty-seven (37) feet six (6) inches. Due to the existing conditions, drainage patterns of the lot and the surrounding properties, this home is require to be elevated allowing the construction of drainage swales, which the Petitioner cannot control. Without this elevation of the proposed residence the development would require an extensive amount of storm sewer, making the project unfeasible.
